EQUALITY AND CONSCIENCE PETITION

Recent Equalities legislation and its interpretation in the courts has led to several individuals who hold to mainstream Christian teaching being barred from different areas of public life and employment, running counter to our country's long heritage of Freedom of Conscience, and creating a serious obstacle to the Christian community's full and active involvement in the Big Society initiative.

We call on the Prime Minister to act decisively to address this situation, securing the change necessary to ensure that the law provides a basis for widespread involvement in serving society whilst properly upholding the dignity of every individual, including those who seek to live with integrity to Christian conscience and teaching.
